

LICENSE MANAGER

AUDIT CONNECTORS

Because License Dashboard understands that replacing or duplicating existing inventory and discovery solutions is slow and painful, it has developed a range of out-of-the-box connectors designed to integrate your existing audit solution into License Manager. There's no faster way to start managing your software licenses.

License Manager Audit Tool Connectors support:

- Multiple concurrent data feeds from several tools
- Out-of-the-box functionality with no configuration
- Collection of software install & hardware configuration data
- Import of both EXE & MSI data to identify both installed products and suites

Product Name	Database	EXE Data	MSI Data	Hardware Data	OS Summary	Metered Data	Custom CSV Report	Last Seen Date
Absolute Manage	SQLite	X	X	X	X			
Alchemy Lab Asset Tracker for Networks	SQL Server		X	X	X			X

Native Connectors		
Product Name	Database	Version
Active Directory Connector	LDAP	1.3.0.1
HP Universal CMDB Connector	SOAP	1.0.3.9
IBM BigFix Enterprise Server Connector	SOAP/REST	1.0.0.12
IBM BigFix Inventory/ILMT Connector	REST	1.0.0.7
Office 365 Connector	PowerShell	1.1
Oracle Review Lite Processor	TEXT	1.1.0.1
VMware AirWatch Connector	REST	1.0.0.0
VMware App Volumes Connector	SQL Server/LDAP	1.0.0.3
VMware vCenter Connector	VMware SDK	1.3.2.1
Xpandion SAP Connector	REST	1.0.0.3

Your inventory tool not on the list?

Don't worry if your chosen inventory tool is not included in the table above, custom connectors can be created according to individual customer needs. Please contact License Dashboard's SAM professionals for more information.
